GENERAL INFORMATION

CALCIUM X-TREME® is a foliar spray that can be applied to all crops including but not limited to vegetables, deciduous fruit and nut trees, row crops, tobacco, turf and ornamental crops. Contact your local Crop Excellence® representative for specific crop and program recommendations.

CALCIUM X-TREME® is easily absorbed through leaf and fruit tissue. CALCIUM X-TREME® is a plant supplement and is intended to be used in conjunction with a regular fertilizer program. A compatibility test is recommended before mixing and using on a full scale. This fertilizer is intended to be used as a supplement to a regular fertilization program and may not, by itself, provide all nutrients required by crops and other plants.

DIRECTIONS FOR USE

Apply 1 - 2 pints per acre per application on most crops or through fertigation systems. See dealer for specific recommendations for each crop.
