## GENERAL INFORMATION

**WATERSPOUT** is a multi-function spray adjuvant.

**WATERSPOUT** is designed as a penetrant, drift control agent, deposition aid, and spray tank buffer all in one product. **WATERSPOUT** may be used on a wide range of crops including fruits, vegetables, row crops, tree nut crops, citrus, small grains, forage crops, vine crops, as well as turf and ornamentals. **WATERSPOUT** can safely enhance pesticide efficiency and on-target deposition while conditioning spray tank water pH.

**WATERSPOUT** may be used with any herbicide, insecticide, fungicide or other pest control product that allows or requires the use of a spray additive. This product may be used in accordance with the label instructions of pesticides that have been approved for aquatic use. The user must have experience with this product or have tested this product in the application and on all plants before use. To test the product, make the exact mixture desired and spray a small test area. Then wait at least 48 hours to see if damage occurs.

**ALWAYS FOLLOW THE DIRECTIONS ON THE LABEL OF ANY PEST CONTROL PRODUCT.**
