## GENERAL INFORMATION

**AS-34 PLUS™** is a 34% liquid ammonium sulfate with a drift retardant to act as a deposition aid. **AS-34 PLUS™** is designed to alleviate tank mix problems commonly associated with dry ammonium sulfate in addition to reducing the number of small driftable particles. When used as directed, **AS-34 PLUS™** maximizes the activity and effectiveness of certain herbicides in post emergence applications. Therefore, care must be taken in treating sensitive crops during periods when plants are subjected to drought stress, high temperatures, and high humidity. **SHAKE WELL BEFORE USING.**
