

# Safety Data Sheet

## CELP 4-0-9

P404

Store in a closed container.

---

### SECTION 3: Composition/information on ingredients

#### 3.2 Mixtures

##### Hazardous components

###### 1. Potassium acetate

Concentration > 10 % (weight)  
CAS no. 127-08-2

###### 2. Urea

Concentration > 10 % (weight)  
CAS no. 57-13-6

---

### SECTION 4: First-aid measures

#### 4.1 Description of necessary first-aid measures

|                         |  |
|-------------------------|--|
| General advice          | Consult a physician. Show this safety data sheet to the doctor in attendance.  |
| If inhaled              | If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.  |
| In case of skin contact | Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Consult a physician.   |
| In case of eye contact  | Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention/advice. |
| If swallowed            | Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.  |

#### 4.2 Most important symptoms/effects, acute and delayed.

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11.

#### 4.3 Indication of immediate medical attention and special treatment needed, if necessary

No data available

---

### SECTION 5: Fire-fighting measures

#### 5.1 Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical, or carbon dioxide.

#### 5.2 Specific hazards arising from the chemical.

Avoid inhaling fumes.

#### 5.3 Special protective actions for fire-fighters

# Safety Data Sheet

## CELP 4-0-9

Wear self-contained breathing apparatus for firefighting if necessary. Do not use direct water streams. May spread fire.

---

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment, and emergency procedures

Ensure adequate ventilation. Use personal protective equipment. For personal protection see section 8.

#### 6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Prevent from entering into soil, ditches, sewers, waterways and/or groundwater.

#### 6.3 Methods and materials for containment and cleaning up.

Soak up with inert absorbent material (e.g., sand, silica gel). Keep in suitable, closed containers for disposal.

#### Reference to other sections

For disposal see section 13.

---

### SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Use personal protective equipment as required. Keep container closed when not in use. Never return spills in original containers for re-use. Keep out of the reach of children.

#### 7.2 Conditions for safe storage, including any incompatibilities.

Keep container tightly closed in a dry place. Store away from direct sunlight or ultraviolet light. Protect from atmospheric moisture.

---

### SECTION 8: Exposure controls/personal protection

#### 8.2 Appropriate engineering controls

Avoid contact with skin, eyes, and clothing. Wash hands before breaks and immediately after handling the product. Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

#### 8.3 Individual protection measures, such as personal protective equipment (PPE)

##### Eye/face protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

##### Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

##### Body protection

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

##### Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the

# Safety Data Sheet

## CELP 4-0-9

respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

### Environmental exposure controls

Do not let product enter drains.

---

## SECTION 9: Physical and chemical properties

### Basic physical and chemical properties

|  |                         |
|--|-------------------------|
| Physical state   | Liquid                  |
| Appearance   | Dark Brown              |
| Color  | Dark Brown              |
| Odor   | Mild Odor               |
| Odor threshold   | Not Available           |
| Melting point/freezing point                             | 32°F                    |
| Boiling point or initial boiling point and boiling range | Not Available           |
| Flammability   | Not Available           |
| Lower and upper explosion limit/flammability limit       | Not Available           |
| Flash point  | Closed cup - 102°C      |
| Auto-ignition temperature                                | Not Available           |
| Decomposition temperature                                | Not Available           |
| pH   | 6.5-7.5                 |
| Kinematic viscosity                                      | Not Available           |
| Solubility   | Dispersible             |
| Partition coefficient n-octanol/water (log value)        | Not Available           |
| Vapor pressure   | Not Available           |
| Evaporation rate   | Not Available           |
| Density and/or relative density                          | 9.3 lbs./gal, 1.41 (SG) |
| Relative vapor density                                   | Not Available           |

---

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

None under normal use conditions. Sensitive to extreme temperatures.

### 10.2 Chemical stability

Stable under recommended storage conditions.

### 10.3 Possibility of hazardous reactions

None that are known.

### 10.4 Conditions to avoid.

Exposure to elevated temperatures can cause product to decompose. Avoid direct sunlight or ultraviolet sources.

### 10.5 Incompatible materials

Avoid contact with strong acids, strong bases, strong oxidizers.

### 10.6 Hazardous decomposition products

Decomposition products will depend upon temperature, air supply and the presence of other materials and may include aldehydes, alcohols, ethers and organic acids.

---

## SECTION 11: Toxicological information

### Information on toxicological effects

# Safety Data Sheet

## CELP 4-0-9

### Acute toxicity

None that are known.

### Skin corrosion/irritation

May cause skin irritation.

### Serious eye damage/irritation

May cause eye irritation.

### Respiratory or skin sensitization

May cause an allergic skin reaction.

### Germ cell mutagenicity

No data available

### Carcinogenicity

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

### Reproductive toxicity

No data available

### Specific target organ toxicity (STOT) - single exposure

No data available

### Specific target organ toxicity (STOT) - repeated exposure

No data available

### Aspiration hazard

No data available

---

## SECTION 12: Ecological information

### Toxicity

No data available on product

### Persistence and degradability

Material is readily biodegradable.

### Bioaccumulative potential

No data available

### Mobility in soil

No data available

### Other adverse effects

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

---

## SECTION 13: Disposal considerations

### Disposal methods

### Product disposal

# Safety Data Sheet

## CELP 4-0-9

Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

### Packaging disposal

Dispose of as unused product.

### Other disposal recommendations

Do not dump into any sewers, on the ground or into any body of water.

---

## SECTION 14: Transport information

### DOT (US)

Not dangerous goods

### IMDG

Not dangerous goods

### IATA

Not dangerous goods

---

## SECTION 15: Regulatory information

### 15.1 Safety, health, and environmental regulations specific for the product in question

#### Canadian Domestic Substances List (DSL)

Chemical name: Acetic acid, potassium salt

CAS: 127-08-2

#### Canadian Domestic Substances List (DSL)

Chemical name: Urea

CAS: 57-13-6

#### HMIS Rating

|                     |   |
|---------------------|---|
| Health              | 0 |
| Flammability        | 1 |
| Physical hazard     | 0 |
| Personal protection |   |

#### NFPA Rating

|                   |   |
|-------------------|---|
| Health hazard     | 0 |
| Fire hazard       | 1 |
| Reactivity hazard | 0 |
| Special hazard    |   |

---

## SECTION 16: Other information

Certification Date: November 27, 2023

### 16.1 Further information/disclaimer

DISCLAIMER: The information provided in this Safety Data Sheet is correct to the best of our knowledge, information, and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
