

SECTION 1: Identification

1.1 GHS Product identifier

Product name Stress Master 5-0-5

1.2 Recommended use of the chemical and restrictions on use

Inorganic/Organic Chemical Fertilizer Mixture

1.3 Supplier's details

Name CAROLINA EASTERN, INC.
Address 347 McAllister Mill Road
Scranton SC 29591

USA

Telephone 843-389-2761

1.4 Emergency phone number

CHEMTREC Administrative Office Telephone number: 1-800-262-8200

SECTION 2: Hazard identification

General hazard statement

"Consumer Products", as defined by the US Consumer Product Safety Act and which are used as intended (typical consumer duration and frequency), are exempt from the OSHA Hazard Communication Standard (29 CFR 1910.1200). This SDS is being provided as a courtesy to help assist in the safe handling and proper use of the product.

2.1 Classification of the substance or mixture

GHS classification in accordance with: OSHA (29 CFR 1910.1200)

- Skin corrosion/irritation (chapter 3.2), Cat. 3
- Toxic to reproduction (C.4.10), Cat. 1A

2.2 GHS label elements, including precautionary statements.

Pictograms

Signal word Danger

Hazard statement(s)

May damage fertility or the unborn child [effect, route]

Precautionary statement(s)

P201 Obtain special instructions before use.

P202 Do not handle until all safety precautions have been read and understood.
P280 Wear protective gloves/protective clothing/eye protection/face protection.

P308+P313 IF exposed or concerned: Get medical advice/attention.

P405 Store locked up.

P501 Dispose of contents/container.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Hazardous components

1. Urea

Concentration 2.5 % (weight) CAS no. 57-13-6

2. Ammonium Sulfate

Concentration 2.5 % (weight) CAS no. 7783-20-2

3. Boric acid

Concentration > 1 % (weight) CAS no. 10043-35-3

- Toxic to reproduction (C.4.10), Cat. 1B

H360FD May damage fertility. May damage the unborn child.

SCLs/M-factors/ATEs Repr. 1B; H360FD: $C \ge 5.5 \%$

4. Sulfur

Concentration 2.5 % (weight) CAS no. 7704-34-9

- Skin corrosion/irritation (C.4.4), Cat. 2

H315 Causes skin irritation.

5. Molybdate (MoO42-), ammonium (1:2), (T-4)-

Concentration > 1 % (weight) CAS no. 13106-76-8

6. Manganese phosphonate

Concentration 2 % (weight) CAS no. 22775-65-1

7. Phosphonic acid, zinc salt (1:1)

Concentration 2 % (weight) CAS no. 14332-59-3

SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

General advice Consult a physician. Show this safety data sheet to the doctor in attendance.

If breathed in, move person into fresh air. If not breathing, give artificial

respiration. Consult a physician.

In case of skin contact Wash with plenty of water for at least 15 minutes. Call a poison center or

doctor if irritation develops or persists.

Acute and delayed symptoms and effects: May cause skin irritation. Signs/symptoms may include localized redness, swelling, and itching.

In case of eye contact Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. If eye irritation persists: Get

medical attention/advice.

If swallowed Do NOT induce vomiting. Never give anything by mouth to an unconscious

person. Rinse mouth with water. Consult a physician.

4.2 Most important symptoms/effects, acute and delayed.

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section

4.3 Indication of immediate medical attention and special treatment needed, if necessary

No data available

SECTION 5: Fire-fighting measures

5.1 Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical, or carbon dioxide.

5.2 Specific hazards arising from the chemical.

Avoid breathing dust, vapors, or fumes from burning materials.

5.3 Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment. For personal protection see section 8.

6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains, sewers, and public waters. Retain and dispose of contaminated water used for washing residues.

6.3 Methods and materials for containment and cleaning up.

Soak up with inert absorbent material and dispose of in accordance with local and national regulations. Keep in suitable, closed containers for disposal.

Reference to other sections

For disposal see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Use personal protective equipment as required. Keep container closed when not in use. Never return spills in original containers for re-use. Keep out of the reach of children.

7.2 Conditions for safe storage, including any incompatibilities.

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid storage at temperatures of 110°F or higher. Corrosive to steel, aluminum, brass. Use with stainless steel or PVC fittings. Product may stain unfinished wood, painted surfaces, or concrete.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

1. Boric acid (CAS: 10043-35-3 EC: 233-139-2)

TWA: 2.000000, mg/m3: USA (ACGIH)

Upper Respiratory Tract irritation. Not classifiable as a human carcinogen varies.

STEL: 6.000000, mg/m3; USA (ACGIH)

Upper Respiratory Tract irritation. Not classifiable as a human carcinogen varies.

TWA: 2.000000, mg/m3; USA (ACGIH)

Upper Respiratory Tract irritation. Not classifiable as a human carcinogen varies.

TWA: 2.000000, mg/m3; USA (ACGIH)

Upper Respiratory Tract irritation. Not classifiable as a human carcinogen varies.

STEL: 6.000000, mg/m3; USA (ACGIH)

Upper Respiratory Tract irritation. Not classifiable as a human carcinogen varies.

STEL: 6.000000, mg/m3; USA (ACGIH)

Upper Respiratory Tract irritation. Not classifiable as a human carcinogen varies.

TWA: 2 mg/m3; USA (ACGIH)

Upper Respiratory Tract irritation. Not classifiable as a human carcinogen varies.

STEL: 6 mg/m3; USA (ACGIH)

Upper Respiratory Tract irritation. Not classifiable as a human carcinogen varies.

8.2 Appropriate engineering controls

Avoid contact with skin, eyes, and clothing. Wash hands before breaks and immediately after handling the product.

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Body protection

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Environmental exposure controls

Do not let product enter drains.

SECTION 9: Physical and chemical properties

Basic physical and chemical properties

Physical state Liquid Appearance Clear Color Clear

Odor Not Available
Odor threshold Not Available
Melting point/freezing point Not Available
Boiling point or initial boiling point and boiling range 250°C

solling point or initial boiling point and boiling range 250 C

Flammability
Lower and upper explosion limit/flammability limit
Flash point
Auto-ignition temperature
Decomposition temperature

Not Available

Density and/or relative density 10.9 lbs./gal, 1.25 (SG)

Relative vapor density Not Available

SECTION 10: Stability and reactivity

10.1 Reactivity

None under normal use conditions.

10.2 Chemical stability

Stable under recommended use conditions and storage

10.3 Possibility of hazardous reactions

None that are known.

10.4 Conditions to avoid.

Strong bases.

10.5 Incompatible materials

Boric acid: Potassium, Acid anhydrides

10.6 Hazardous decomposition products

Boric acid: Hazardous decomposition products formed under fire conditions. - Borane/boron oxides

In the event of fire: see section 5

SECTION 11: Toxicological information

Information on toxicological effects

Acute toxicity

No data available.

Skin corrosion/irritation

May cause skin irritation.

Serious eye damage/irritation

Causes eye irritation.

Respiratory or skin sensitization

May cause an allergic skin reaction.

Germ cell mutagenicity

No data available

Carcinogenicity

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

Reproductive toxicity

No data available

Specific target organ toxicity (STOT) - single exposure

No data available

Specific target organ toxicity (STOT) - repeated exposure

No data available

Aspiration hazard

No data available

SECTION 12: Ecological information

Toxicity

No data available on product

Persistence and degradability

No data available on product

Bioaccumulative potential

No data available on product.

Mobility in soil

No data available

Other adverse effects

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

SECTION 13: Disposal considerations

Disposal methods

Product disposal

Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

Packaging disposal

Dispose of as unused product.

Other disposal recommendations

Avoid releasing into the environment.

SECTION 14: Transport information

DOT (US)

Not dangerous goods

IMDG

Not dangerous goods

IATA

Not dangerous goods

SECTION 15: Regulatory information

15.1 Safety, health, and environmental regulations specific for the product in question

Canadian Domestic Substances List (DSL)

Chemical name: Urea

CAS: 57-13-6

Pennsylvania Right To Know Components

Chemical name: Sulfuric acid diammonium salt

CAS number: 7783-20-2

Canadian Domestic Substances List (DSL)

Chemical name: Sulfuric acid diammonium salt

CAS: 7783-20-2

SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards

Chronic Health Hazard

Massachusetts Right To Know Components

No components are subject to the Massachusetts Right to Know Act.

New Jersey Right To Know Components

Boric acid

CAS-No. 10043-35-3

Pennsylvania Right To Know Components

Boric acid

CAS-No. 10043-35-3

California Prop. 65 Components

This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

Canadian Domestic Substances List (DSL)

Chemical name: Boric acid

CAS: 11113-50-1

Canadian Domestic Substances List (DSL)

Chemical name: Boric acid (H3BO3)

CAS: 10043-35-3
