

TURF EXCELLENCE™

POLY 28-0-0

Contains Control Release Nitrogen LIQUID FOLIAR NITROGEN

GUARANTEED ANALYSIS:

Total Nitrogen (N)..... 28.0%
8.40% Urea Nitrogen
19.60% Other Water Soluble Nitrogen*
*70% Control Release Nitrogen

Derived from: Urea and Triazone
Plymethylene Ureas

TURF EXCELLENCE™ POLY 28-0-0 is a liquid foliar fertilizer designed for application on turf and ornamental plants requiring supplemental N during the growing season. A portion of the nitrogen is in a control release form providing more efficient nitrogen utilization.

NET WEIGHT: 26 lbs (11.79 kg)

DENSITY: 10.4 lbs per gal @ 68°F

NET CONTENTS: 2.5 gal (9.46 L)

CAUTION: KEEP OUT OF REACH OF CHILDREN

TURF EXCELLENCE™ POLY 28-0-0

This product is tank mix compatible with most fertilizers and pesticides. However due to the variability in water sources and pesticide formulations a compatibility test is recommended.

GENERAL INFORMATION

TURF EXCELLENCE™ POLY 28-0-0 is a liquid foliar fertilizer designed for application on turfgrass and ornamental plants requiring supplemental N during the growing season. A portion of the nitrogen is in a control release form providing more efficient nitrogen utilization. **TURF EXCELLENCE™ POLY 28-0-0** is recommended as a carrier for pesticides. The control release nitrogen prolongs the wetting of leaf surfaces for greater penetration and less loss from crystallization on leaf surfaces as with liquid urea products.

DIRECTIONS FOR USE

TURF EXCELLENCE™ POLY 28-0-0 can be soil or foliar applied through ground or aerial applications. Use sufficient water for thorough and uniform coverage of foliage or soil. Foliar application is recommended when fast correction is desired.

TURF EXCELLENCE™ POLY 28-0-0 will disperse in water with minimal agitation. Always check compatibility before mixing.

Follow the mixing sequence: 1. Water; 2. TURF EXCELLENCE™ POLY 28-0-0; 3. Pesticide.

RECOMMENDED RATES

The optimum rate and timing of application will depend on local conditions and should always be made as a result of soil and/or plant tissue analysis. Local climatic conditions, infestations and other factors affect the performance of any pesticide or nutritional spray, so consult with your local agricultural authorities for specific use information in your area.

PRECAUTIONARY STATEMENTS

May be harmful if swallowed. Causes mild skin irritation. Causes serious eye irritation. Causes mild skin irritation. May be harmful if inhaled. **Follow Directions!** Refer to SDS for health, safety and environmental information.

WHAT TO DO IN CASE OF CONTACT

Eye: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation persists. **Skin:** Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if irritation continues. **Inhalation:** Move to fresh air. Obtain medical attention if irritation develops. **Ingestion:** Drink large volumes of water. Call a physician or poison control center. **Indication of Immediate Medical Attention and Special Treatment Needed:** In the event of an adverse response, treatment should be directed toward control of the symptoms and the clinical condition of the patient.

STORAGE AND DISPOSAL

This product may be corrosive to aluminum, mild steel and brass. Store in HDPE, fiberglass or stainless steel containers. Use only stainless steel, P.V.C. or polypropylene fittings. **Storage:** Store in a cool place in original container in a locked storage area inaccessible to children, pets, domestic animals or wildlife. **Container Disposal:** Do not reuse empty containers. Triple rinse (or equivalent) then offer for recycling or dispose by procedures approved by state or local authorities.
