# **TURF EXCELLENCE™ POND DYE BLACK**

Based on currently available data, this product is not classified as a hazardous substance.

However, observe good industrial hygiene practices. Wash hands after handling.

## **GENERAL INFORMATION**

**TURF EXCELLENCE™ POND DYE BLACK** is a water impoundment colorant. It is safe to use in all water impoundments. It will not harm fish or wildlife associated with water impoundments, safe to use treated water as irrigation source for all purposes. It should not be used in running or moving bodies of water due to dilution from standard use rates will significantly reduce efficacy of the product. **TURF EXCELLENCE™ POND DYE BLACK** reduces sunlight penetration into bodies of water and reduces and prevents weed and algae formulation in shallow bodies of water. It dyes the water a dark black color.

## **DIRECTIONS FOR USE**

**SHAKE WELL BEFORE USING.** **TURF EXCELLENCE™ POND DYE BLACK** water Impoundment dye application rates will vary depending on water impoundment, depth and surface area. Optimal application rate is 1 gallon of **TURF EXCELLENCE™ POND DYE BLACK** per 4 acre feet of water impoundment. Treatment color will generally last 3 to 4 months depending upon rate used, intensity of sunlight, depth of impoundment and water movement.

## **RECOMMENDED RATES**

Calculate the surface area of water impoundment to be treated and average depth and use 1 gallon per 4 acre foot of depth. Best results will be observed if impoundment to be treated is applied from several locations. If unable to treat from several locations, treat from location where wind actively moves surface water.

## **PRECAUTIONARY STATEMENTS**

Based on currently available data, this product is not classified as a hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling.
